

Drill bits

The range of C.K drill bits covers all standard applications, and are made from the highest quality materials.

Masonry Drills

High quality nickel plated tungsten carbide tipped drills with negative chamfer and ground flutes for efficient swarf clearance. Cold roll formed giving uninterrupted grain structure for greater strength and durability. Suitable for use with hand or power drills (rotary and percussion). The C.K plastic magazine storage case makes a handy drill bit stand for the end user.

Masonry	4 – 8mm	10mm +
Soft masonry	1800	1000
Hard masonry	500	300

Masonry Drills – Superior

Superior Quality. Heavy duty diamond-honed tungsten carbide tip. Negative ground section and milled flutes for unbeatable swarf clearance. Sand blasted finish. Multi-purpose for use on brick, stone, masonry, marble, etc. Suitable for rotary and rotary percussion drills.

Masonry	R.P.M	Masonry	R.P.M
Granite	800 – 1000	Brick	1000
Masonry	1000	Marble	500
Concrete	1000	Natural stone	500 – 800

C.K SDS bits are ideal for professional use and are made from top quality chrome nickel molybdenum steel. Each bit has a tungsten carbide tip for strength and durability, and the shank is compatible with all SDS+ chucks.
